Subject: Misinformation re: Sonoma County elections - Promoted by Russian Actors

Hello,

My name is [REDACTED] I'm the Senior Communication Manager for the California Secretary of State Office of Election Cybersecurity.

My email address is [REDACTED]@sos.ca.gov.

We've been monitoring a situation in our state where an image of ballots was circulated as evidence of voter fraud - Sonoma County has explained that this was part of a routine process to discard old 2018 ballots, as allowed by law, and has nothing to do with the 2020 election.

<https://twitter.com/darhar981/status/1309533853967671297>

Debunked

here: https://twitter.com/CountyofSonoma/status/1309588979545645056?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1309588979545645056%7Ctwgr%5Eshare_3&ref_url=https%3A%2F%2Fobservers.france24.com%2Fen%2F20201001-debunked-viral-photos-mail-ballots-california-dumpster

While all posts around this topic are misinformation, we were just alerted to the fact that Russian Actors Amplified False Claim of Mail-in Ballots Discarded in Sonoma County Dumpster

On Oct. 1, 2020, Reuters and the security firm Graphika [reported](#) that actors associated with the St. Petersburg-based Internet Research Agency (IRA) established a pseudo news site called the Newsroom for American and European Based Citizens "NAEBC" (naebc[.]com) which attempted to influence U.S. voters ahead of the 2020 Presidential election.

It was observed that on Sept. 25, 2020, the NAEBC-associated user @LeoAlpine on the platform Parler [amplified](#) the false narrative that mail-in-ballots were recently found in a dumpster in Sonoma County. @LeoAlpine posted:

"More than a thousand mail-in-ballots found in a dumpster in California! The zip code "94928" on the ballots matches the county. This is why everyone should vote in person! #MAGA2020 #TRUMP2020 #KAG" (Figure 1).

We consider @LeoAlpine's post as evidence that Russian actors are amplifying reports of mail-in ballots.

-
-
- In addition to reposting articles from U.S.-based news outlets, @LeoAlpine frequently posted articles from the NAEBC website, with the most recent NAEBC post on Oct. 1, 2020.

- This is an indication that @LeoAlpine is closely affiliated or operated by the same actors who set up the NAEBC website.

-
-
-
- Our assessment that Russian actors are amplifying mail-in ballot errors and disinformation is consistent with American intelligence officials recent assessments, as [reported](#) by Representative Adam B. Schiff, chairman of the House Intelligence Committee.
-

Our monitoring software is investigating other NAEBC-affiliated accounts for potential investigatory leads into additional Russian information operations and any impact to California voters.

 The linked image cannot be displayed. The file may have been moved, renamed, or deleted. Verify that the link points to the correct file and location.

Figure 1: @LeoAlpine amplified a false mail-in ballot narrative; the narrative was subsequently debunked as the mail-in ballots seen in the photo were from 2018

CAUTION: This email originated from outside of DHS. DO NOT click links or open attachments unless you recognize and/or trust the sender. Contact your component SOC with questions or concerns.

Brian,

We know many are already aware of this case but the impact seems to be escalating. Our hope is the platforms can do more to take down the misinformation. The EIP has been tracking this spread under ticket EIP-243 and has more examples.

Thanks,
[REDACTED]

Subject: Misinformation re: Sonoma County elections - Promoted by Russian Actors

Hello,

My name is [REDACTED] I'm the Senior Communication Manager for the California Secretary of State Office of Election Cybersecurity.

My email address is [REDACTED]@sos.ca.gov.

We've been monitoring a situation in our state where an image of ballots was circulated as evidence of voter fraud - Sonoma County has explained that this was part of a routine process to discard old 2018 ballots, as allowed by law, and has nothing to do with the 2020 election.

<https://twitter.com/darhar981/status/1309533853967671297>

Debunked

here: https://twitter.com/CountyofSonoma/status/1309588979545645056?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1309588979545645056%7Ctwgr%5Eshare_3&ref_url=https%3A%2F%2Fobservers.france24.com%2Fen%2F20201001-debunked-viral-photos-mail-ballots-california-dumpster

While all posts around this topic are misinformation, we were just alerted to the fact that Russian Actors Amplified False Claim of Mail-in Ballots Discarded in Sonoma County Dumpster

On Oct. 1, 2020, Reuters and the security firm Graphika [reported](#) that actors associated with the St. Petersburg-based Internet Research Agency (IRA) established a pseudo news site called the Newsroom for American and European Based Citizens "NAEBC" (naebc[.]com) which attempted to influence U.S. voters ahead of the 2020 Presidential election.

It was observed that on Sept. 25, 2020, the NAEBC-associated user @LeoAlpine on the platform Parler [amplified](#) the false narrative that mail-in-ballots were recently found in a dumpster in Sonoma County. @LeoAlpine posted:

"More than a thousand mail-in-ballots found in a dumpster in California! The zip code "94928" on the ballots matches the county. This is why everyone should vote in person! #MAGA2020 #TRUMP2020 #KAG" (Figure 1).

We consider @LeoAlpine's post as evidence that Russian actors are amplifying reports of mail-in ballots.

-
-
- In addition to reposting articles from U.S.-based news outlets, @LeoAlpine frequently posted articles from the NAEBC website, with the most recent NAEBC post on Oct. 1, 2020.
- This is an indication that @LeoAlpine is closely affiliated or operated by the same actors who set up the NAEBC website.
-
-
-
- Our assessment that Russian actors are amplifying mail-in ballot errors and disinformation is consistent with American intelligence officials recent assessments, as [reported](#) by
- Representative Adam B. Schiff, chairman of the House Intelligence Committee.
-

Our monitoring software is investigating other NAEBC-affiliated accounts for potential investigatory leads into additional Russian information operations and any impact to California voters.

 The linked image cannot be displayed. The file may have been moved, renamed, or deleted. Verify that the link points to the correct file and location.

Figure 1: @LeoAlpine amplified a false mail-in ballot narrative; the narrative was subsequently debunked as the mail-in ballots seen in the photo were from 2018

Subject: Queens Village (NY) residents receiving pre-filled out ballots for Joe Biden

FYSA, EIP has reported the following to EI-ISAC and twitter.

From EIP:

Twitter: EIP noticed a post by user @/jakejakeny that alleged ballots are being sent to New York City, NY, residents that are pre-filled out to favor Biden/Harris; the user alleges voters are also instructed to "turn in" the pre-filled ballots as-is. We recommend that Twitter remove [this tweet](https://twitter.com/jakejakeny/status/1321900543451799559) immediately, as it is intentionally vague so as to mislead.

<https://twitter.com/jakejakeny/status/1321900543451799559>

<https://twitter.com/jakejakeny/status/1321955007189651459>

Moments ago, @/jakejakeny went live via Periscope, [embedded on Twitter](#), and doubled-down on the narrative he asserted in the original text/photo post. He claimed (1) mail-in voting is insecure; (2) conspiracy theories about election fraud are hard to discount; (3) and that he received information about the pre-filled ballots from an unidentified, and unidentifiable, friend. He also promised to go live again tomorrow, 10/30, with "more information." We recommend Twitter removes this post immediately, as it contains a message that intends to mislead and potentially cast doubt on the legitimacy of mail-in voting in a critical pre-election period. We also recommend that @/jakejakeny is monitored through the end 10/30 in the event that he again attempts to post on this topic in a manner that casts doubt on the legitimacy of the election itself or related election mechanisms.

Additionally, @/jakejakeny is tagging major conservative pundits (e.g. users with broad reach); claims news outlet affiliation in his bio; and the post itself is spilling over onto Facebook. These factors further support swift removal of both posts and a continued monitoring of the user's account.

Hey [REDACTED]

Hope you all survived the hearing today. So here's the deal –EIP will only report something to Twitter if they have additional context to provide based on their research. For example, if they do analysis of the tweet and find info they think would help you all make a decision, they will send that analysis your way. They will not send Twitter reporting unless it is that additional context. They will also let CISA know when they are reporting something to you so I can give you a heads up (let me know if that makes things worse rather than better). They will continue to use the CIS case number in the email subject to facilitate identifying duplicative reports. I know that's not a great solution, but hopefully it is helpful.

Subject: Facebook post

Good Morning,

I reached out to [REDACTED] at Secretary of State's office and he informed me to get this information to you. I received a complaint about a Facebook post that implies a deceased person had voted. I have attached the post from Facebook and my record from I Voters to show you that the person is deceased and has been a canceled vote since 8/18/1999. We also do not have a precinct named ON204. My office received a call from this person's mother yesterday and she was upset. I then had another citizen come into my office wanting to know how this was posted on Facebook. We received another phone call this morning from the step father wanting to know how this is happening. I hope that you can assist with this matter.

<https://www.facebook.com/profile.php?id=1576601744>

Hello,

The link below is a Michigan voter who is spreading misinformation being Facebook saying he voted for 300 people. We have had local law enforcement contact him and he has pulled the post. Hours late (about an hour ago) he started posting it again. Is this something you all can assist with getting Facebook to pull down? We have received a number of complaints about this post per hour.

Not sure I understand the distinction you're trying to make, but both components of the narrative are false — the person is not a poll worker and no ballots were destroyed. I suppose that makes the entire thing a hoax.

P.S. For additional clarity, also trying to confirm here if this entire matter is a hoax versus just the claim a poll worker was destroying ballots.

Hello again, wanted to follow up on a few points just to be crystal clear -- could you please confirm that (a) the worker in question is not a pollworker; or (b) that he did not, in fact, destroy ballots (or at least that there is no evidence that he destroyed ballots).

Would appreciate this clarity tremendously, thank you so much.

Good Afternoon

To clarify, the USB drive was not inserted into a scanner, the scanners are connected to server through cables. The images and video show a Dominion tech producing a data report on the server and saving the report to a Dominion USB thumb drive and then using a laptop to filter requested information. The Dominion servers are not equipped with Excel and counties are not authorized to install any hardware or software on these systems

Hi [REDACTED]

The EI-ISAC, and our partners at the Election Integrity Partnership (EIP), are tracking a social media post that is gaining traction very quickly. It is likely a misunderstanding but is being portrayed on social media as some sort of nefarious act. If you can clarify for us what is being shown (if it even happened), we can work with the social media platforms to try and have the posts removed as misinformation. Please let us know as soon as possible.
